DETAILED ACTION

Withdrawn Rejections

1. The 35 U.S.C. 103(a) rejections are withdrawn due to the new rejection below.

New Rejection

Double Patenting

2. Claims 1-8 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-8 of copending Application No. 09/967,983. Although the conflicting claims are not identical, they are not patentably distinct from each other because the only difference is the retardation range, of from 0.6 to 0.9 in the present application, and of from 0.4 to 0.6 in '983. These two ranges overlap at the retardation value of 0.6.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Interview Summary

3. The Office will issue an examiner's amendment to clarify the terms in claims 3-4, and allow claims 1-8, upon receipt of a terminal disclaimer over Application No. 09/967,983 as agreed upon by Applicant.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
